This is a war
An attack on us all

We all let it slide
As our morals burn in its wake

We all fly
Until the day that it strikes you.
Leaves you broken inside

This is a war
An attack on us all

How could this be happening?
We were like brothers

I won't forget you
Keep you with me
I won't forget you
Keep you with me

When the smoke clears
Our life's total appears
We will map everything,
Structure all of the lines

When the smoke clears
Our life's total appears
You were a king to us all,
Gentle giant of the land

When you have life in your hands
When you have life in your hands
Hold it tight
Grasp it with strong demand
Hold it tight
Grasp it with strong demand

Mount this earth and excel
With passion and power.
Mount this earth and excel

With passion and power.

Hold it tight
Grasp it with strong demand
Hold it tight
Grasp it with strong demand

When the smoke clears
Our life's total appears
We will map everything,
Structure all of the lines

When the smoke clears
Our life's total appears
You were a king to us all,
Gentle giant of the land

How could this be happening?
We were like brothers

I won't forget you
Keep you with me

When the smoke clears
Our life's total appears
We will map everything,
Structure all of the lines

When the smoke clears
Our life's total appears
You were a king to us all,
Gentle giant of the land
