"Big Machine"

Visit "[Big Machine](#)" on MotoLyrics.com

I don't know because she says so
He's a faggot boy the TV says so
He's a junkie piece of shit because he says so

All that first class jet set brings me
Down, down, down
All that first class drug shit brings me
Down, down, down

Aye aye aye aye aye aye aaa
It's a big machine, it's a big machine
We're all slaves to a big machine
It's a big machine, it's a big machine
We're all slaves to a big machine
All tied up to a big machine
I got houses, got cars
I got a wife, I got kids
Got money in the bank

Get away without borders
I'm a slave, new world order
I guess I chose to be
I guess I chose to be
I guess I chose to be
I guess I chose to be

All that first class jet set brings me
Down, down, down
All that first class drug shit brings me
Down, down, down

It's a big machine, it's a big machine
We're all slaves to a big machine
It's a big machine, it's a big machine
We're all slaves to a big machine
All tied up to a big machine
I got houses, got cars
I got a wife, I got kids
Got money in the bank

Hope I teach my son how to be a man
Now before he hits thirty-five

Comic book lives don't really have any
Real life, do they now?
Hope I teach my son how to be a man
Now before he hits thirty-five
Comic book lives don't really have any
Real life, do they now?

I don't know because she says so
He's a faggot boy the TV says so
He's a junkie piece of shit because he says so

All that first class jet set brings me
Down, down, down
All that first class drug shit brings me
Down, down, down

Aye aye aye aye aye aye aaa
It's a big machine, it's a big machine
We're all slaves to a big machine
It's a big machine, it's a big machine
We're all slaves to a big machine
All tied up to a big machine
I got houses, got cars
I got a wife, I got kids
Got money in the bank

We're all slaves to a big machine
We're all slaves to a big machine
We're all slaves to a big machine
We're all slaves to a big machine

It's a big machine, it's a big machine
We're all slaves to a big machine
It's a big machine, it's a big machine
We're all slaves to a big machine
All tied up to a big machine
I got houses, got cars
I got a wife, I got kids
Got money in the bank
