She Builds Quick Machines

Hold fast, motor off  
Come strong, let it roll.  
Ice cold desert stone  
She build a quick train  
Seems to keep the motor clean.  
So this is kind of weapon sheen  
She's always quick to find  
And breaking through tonight  
I could feel the way they push straight down  
I could feel the way they stood them ground.

Roll over, right  
Keep it through the night, right, right  
Keep it through the night  
Right in my sight, keep it through the night  
I'll smash right through your spotlight

She ran away to Texas  
To keep away the access  
Oh, ripped and beggin', stroke back Texas  
She burnt through the heritage  
Desert 'cross America,  
And they all look sexual so far from home  
I could feel the way they push straight down  
I could feel the way they stood them ground.

Roll over, right  
Keep it through the night, right, right  
Keep it through the night  
Right in my sight, keep it through the night  
I'll smash right through your spotlight

What you give, is what you take.  
What you bleed, is what you break  
I feel for you  
I'd steal for for you  
I'd take, I'd take, I'd take, I'd take, I'd take, I'd take, I'd  
take, I'd take

(guitar solo)

I could feel the way they push straight down  
I could feel the way they stood them ground.

Roll over, right  
Keep it through the night, right, right  
Keep it through the night  
Right in my sight, keep it through the night  
I'll smash right through your spotlight
