Take two to break and three to go
Hold me back you spectacle
Kick me down with broken bones
You picked a fight now stand your ground

You talk about it
Done what you want
In the back of someone else's car

You write the list, well write me off
Rocket bitch is blasting off
Boots laced up I'm here to go
In the end I'll stand alone

You talk about it
Done what you want
In the back of someone else's car

You lied about it
Bled another heart
Then began to fall apart

It rains and you fall back down again
It begins to rain
And I'll knock you right back down again

You incessant bitch you lied in wait
For the last time now
I'm standing now
I'm standing now

Take two to break and three to go
Hold me back you spectacle
Kick me down with broken bones
You picked a fight now stand your ground

You talk about it
Done what you want
In the back of someone else's car

You lied about it
Bled another heart

Then began to fall apart

You talk about it
Done what you want
In the back of someone else's car

You lied about it
Bled another heart
Then began to fall apart
Motherfucker, yeah
