Train Round the Bend (Reed)

Train round the bend  
Takin me away from the country  
I'm sick of the trees  
Take me to the city  
Train goin' round the bend  
Train comin' round the bend

Been in the country much too long  
Trying to be a farmer  
But nothing that I planted ever seemed to grow  
Train comin' round the bend  
Train comin' round the bend

Hey, I am just a city boy  
I'm really not the country kind  
I miss the city streets and the neon lights  
See the train comin' round the bend  
The train comin' round the bend

Once, she's goin' twice  
She's gonna do it all up and down  
She's goin' once, she's goin' twice  
She's goin', train's comin' round the bend  
You know the train's comin' round the bend

Hey, up and down, out of nowhere  
Taking me back where I belong  
I've been here once and I don't dig it tonight  
The train's coming round the bend  
The train's coming round the bend

OOOh Allright!
