The lost children in the dark  
Fear the light, fear the light  
The lost children in the dark  
Will unite, will unite

Water means life  
Pollution - we're to blame  
The human race  
Can't escape from the game

We're the lost children in the dark  
Fear the light, fear the light  
We're the lost children in the dark  
We'll unite, we'll unite

The poison leads  
You through the night  
A passion for gold  
Is making you blind

The lost children in the dark  
Fear the light, fear the light  
We will unite, we will unite  
We will unite, we will unite  
We will unite, we will unite  
Fear the light, fear the light  
We'll unite, we will unite  
Unite  
Unite
