Lyrics and Music by Keith Law

Once among the trees
There must be escape
Down along the farm
There I must be safe
How did I get in here
How did I open the door
How did I get in here
How did I open the door
Did somebody help me there
Has someone been here before

Up and on the highway
I'll walk down the road
Confiscate the evidence
Not to mention my load
Frozen in the farm
Frozen in my mind
Frozen in the farm
Frozen in my mind
The dog's are getting close
Not very far behind now

Once outside the area
Outside the vicinity
I can make my way in peace
From here to infinity
I discovered you looking
At me down on my knees
I discovered you looking
At me down on my knees
I didn't think you'd notice me
Once Among the trees
