Sister insomnia my eyes weep worms for you
Angel anathema i'll drink your blood
The blood you she'd for me
Was all you gave to me
My bold bulimic belly dancer
Narcissistic necromancer
Run just run from me
As day consumes the night the earth shall cover me
Medusa madonna murder me marry me
Under your vapid vultures wings
I'll suckle your black milk
And let it trickle down my tongue
Your womb mouth kiss could kill
As day consumes the night i'll drink your blood
My cold kinetic claws and cancer
Narcissistic necromancer
This time all riots im ready to go
