When the snow turns black
I'll be back - I'll be here
Between the blinking of an eye
Welcome back - Cavalier
When the screams attack
Before the newborn starts to cry
Flaming star or the call of the wild

And it's all in the eyes of a child

The whispers in the breeze
Black Xmas - Devils Eve
Black Xmas - Devil's wine
The river bleeds in time
That's the place - In a dream
Where the red clouds chase

Across the suns hot blazing sky
Where he hides his face
In disgrace - For his queen
He must choose the way she dies

And they say when his eyes turn to green

He'll awake living sin never seen
That's the clue - To believe
Watches over you
Watch his eyes look through
An instant and you're hypnotised
False or true - To deceive
You take his place you're crucified
Black Xmas - Devils Eve

The whispers in the breeze
The river bleeds in time
Black Xmas - Devil's wine
Black Xmas Black Xmas - Devil's wine
