"Burn In Hell"

Eternal night encroaches
Disaster speaks his name
Ignite the fires of Hades
A world engulfed in flame
You burn - in hell
Visions shared by the blind
The chase heats up the danger
Old dragons breath

Inferno - You're gonna crash and burn
Inferno - You're gonna burn in hell

Blood eyes in burning fury
Flesh peeling from the bone
The Gods are judge and jury
Inferno is their home
You cry - You die
As you head for the grave
Welcome to purgatory
Your soul is fried

Eternal night encroaches
Disaster speaks his name
Ignite the fires of Hades
A world engulfed in flame
You burn - in hell
Visions shared by the blind
The chase heats up the danger
Old dragons breath
