"Firelight"

You light a match
And watch it start a fire
You take a drug
That makes you fall much higher
You plant a seed
And grow a field of fury
You make a law
Where you're the judge and jury

It's firelight

You suffocate
Denying all his glory
You meditate
It's not your fuckin story
You flick a switch
To set the scene in darkness
You break a law
Where you collect the profits

It's firelight

You sit it out
Refusing condemnation
You take a shot
Pretending it's a play thing
You plant a bomb
Forget to set the timer
You wake up dead
The fireligh reminds you

The fire's out !
