It's started kind of hazy  
and somehow i gave in to temptation  
I thought that you would've pleased me  
but all i got was false accusations  
but then you tried to break me (no no no no)  
and lived all to your bad reputation

There should be a holiday for girls like me  
just to get some time to pack my bags and breathe  
and maybe you will get it when you'll watch me leave  
cause it's time to say goodbye

You see I made my mind up when I got that bruise  
and if you really wanna know the truth  
I'm not the kind of girl who say this for excuses  
and I know I'll be alright

I might as well just say it (just say you know it)  
we always were a bad combination  
you're old enough to take it  
don't need to hear your sad explanations  
don't tell me we'll make it  
we both know that is false information

chorus

And it's no way you'll turn it around  
'cause I won't let you hold me down  
Everybody knows, everybody knows it honey,  
everybody knows, everybody knows..

chorus x2
