Dark ages - Plague rages  
Satan lives / Satanica  
Death races - Dead faces - 666 / Satanica

Maleficarvm

Tormented - Demented  
Relentless / Satanica  
No saviour - You die here  
Reaper says / Satanica

Maleficarvum - Maleficarvum

Bleeding demon souls - Falling down  
Death in every town - All around  
Some call it the end - Calling now  
No one wears a crown  
Maleficarvm

Speaking loud in ancient tongue  
Worship moon or worship sun  
From the knowledge of the old  
Come the tales of mighty souls  
Rise - Fall - Into hell

In the lightning in the skies  
I can see it in your eyes  
Armageddon will arise  
And the planets will collide  
Rise - Fall - Into hell - Into hell

Time to die - Old and wise - You and I / Satanica  
All a lie - Angels die - Life denied / Satanica
