Tiamat, Adramelch, Acheron, Baal
Burning up the city 'neath unholy citadel
Summoning Leviathan, ready to attack
Evil one awakens all the gods of Metal Black

We come alive at the dawn of the night
We're raising hell and you know that it's right
The music screams on a wing and a prayer
We turn the volume up, come watch if you dare

Hear me calling - Join the pack
Raised in hellfire - Metal Black

This ain't no music for light hearted folk
We tell it straight to the rich and the broke
We're long haired punks and we don't give a care
We turn the mayhem up, join in if you dare

Hear me calling - Join the pack
Raised in hellfire - Metal Black

A celebration of everything loud
This is the music to incite a crowd
Satanic forces lays everything bare
We turn the danger up, feel it in the air

Hear me calling - Join the pack
Raised in hellfire - Metal Black
Venom's calling - Join the pack
Raised in hellfire - Metal Black yeah
Metal Fucking Black
