Run like Hell, in Hell
The deadly race begins
Cyanide, suicide
No prayers or foolish whims
Tonight we'll fight
With glory in our veins
Can't stop us now
Our evil always will reign

The master switch is set
And we must guard the only key
Rip Ride

Satan's speed, our speed
Incarnate pure alive
Light up the night
Were living on a wire
We choose you loose
Nobody body catches fire
Were free you'll see
We live by our desires

Riding in the air nocturnal
Living free
Rip Ride

Run like Hell, in Hell
The deadly race begins
Cyanide, Suicide
No prayers or foolish whims
Tonight we'll fight
With glory in our veins
Can't stop us now
Our evil always will reign

The master switch is set
And we must guard the only key
Rip Ride
