La,,,

I'm good to dip a toe, but should you be diving in
Surface it looks so calm, but beneath the sharks swim
You think you're original, but I've been there, done that
I got a soaking wet shirt
My doctor told me I should not be messin' with you
You're bad for my health and negative attitude
It's self preservation not a thing I can do
Oh,

Why don't you run away
Why don't you get away
You don't know a thing about me how I hold your
gravity
I look for destruction
Watch the TV, just look at the news
Don't you understand
It's just my wicked plan
I get a kick out of messin' with you head and breaking
men
I look for destruction
Think about it before you dive in
Sink or swim?

La,

You never know what you will get
Cause I like a good surprise
You say I'm just a little girl
But hey! Look beyond the eyes
My heart's already broke

Yeah I've been there, done that, got a stupid wet shirt
My doctor told me I should not be mess up with you
You're bad for my health and negative attitude
To get it out my system not a thing I can do
Oh,

Why don't you run away
Why don't you get away

You don't know a thing about me how I hold your
gravity
I look for destruction
Watch the TV, just look at the news
Don't you understand
It's just my wicked plan
I get a kick out of messin' with you head and breaking
men
I look for destruction
Think about it before you dive in
Sink or swim?
Sink or swim?
Sink or swim?

My doctor told me I should not be messin' with you
Why don't you run away
Why don't you get away
You don't know a thing about me how I hold your
gravity
I look for destruction
Watch the TV, just look at the news
Don't you understand
It's just my wicked plan
I get a kick out of messin' with you head and breaking
men
I look for destruction
Think about it before you dive in(X2)
Baby Sink or swim?
