"Sleep When I'm Dead"

There's no one to save us, it's kill or be killed
Living in a jungle you'll hunt with all your skills
Waiting for a victim, your hunger must be fed
Better see it coming or you will end up dead

Taste the anger - I'm seeing red
Feel the danger - Sleep when I'm dead

There's no time for mercy, there's no need for
sympathy
Line of fire and chaos in a world of constant greed
Don't let your guard down, they'll be on you in a flash
Keep it locked and loaded, you're heading for a crash

There's no second chances
You're going full speed
Headlong into danger
Your habit needs a feed
Can't put the brakes on your finished when you stop
There's no tomorrow and yesterday is lost
