Please just tell me what to do  
My sorrow goes away when I'm with you  
People talk about your way  
But they seem to lead themselves astray

I need you now  
tonight  
Come near me now  
tonight

I was always with you  
Counting hours for you  
I lay down my all for you  
Forsaken eyes won't bring me down

Please just tell me what to say  
We've come to far to let this slip away  
Wish we both were sick and tired  
And all we need is put the world away

Cause I need you now  
tonight  
Complete me now  
tonight

Ref.

Tell me what to do  
Tell me what to say  
Tell me what to do  
Tell me what to say

Please just tell me what to do  
My sorrow goes away when I'm with you
