### "There She Goes"

Visit "[There She Goes](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There she goes  
She's my little angel  
I watch her leave  
Everything behind  
There she goes  
Like a little angel  
And still her smile  
Makes me feel so warm

I wish I knew a way to not let her go  
I wish I knew a way to say

No goodbye  
Don't know why  
Feels like I cant stop falling

There she goes  
She's my little angel  
I watch her leave  
Everything behind

If I could change all this you know that I would  
If I could turn back time and say

No goodbye  
Don't know why  
Feels like I can't stop falling  
No goodbye  
Don't know why  
Feels like I can't stop falling

There she goes  
She's my little angel  
I watch her leave  
Everything behind
