You know she only plays beneath the night of day
Weaving her deadly web of lies to tempt her pray
Her deadly poison rots the reason in your mind
You contribute towards the future of her kind

Oh no - Don't you believe her - Look out
She is the fire - Heavenly hell

You can't resist - Under her spell
She lets you in - Under her spell
So inviting - The angels fell

But you can't see behind the schemes
You thought you'd fell into a dream
You should have taken more care

Can't you see your dreams - They're a nightmare
The angels fell - Heavenly hell - Under a spell
Caught - Under a spell - Under a spell
And then her final trick the noose that she has tied

You know she's dangerous between her smiles and
grace
Her charms adventurous with schizophrenic lies

Oh no - Don't you believe her - Look out
She is the fire - Heavenly hell

You can't resist - Under her spell
She lets you in - Under her spell
So inviting - The angels fell
[Repeat Verse 1 & Chorus]
The angels fell - Heavenly hell - Under a spell

You're caughtCaught - Under a spell - Under a spell
