

Venus In Flames "Better Man"

Visit "[Better Man](#)" on MotoLyrics.com

I'm on a lonely trip
A highway of melody
Making the pieces fit
Learning to set them free
I'm trying to clear my mind
Tuning what's out of key
I'm the godforsaken kind
Thinking only of me
So please don't break me
Please don't leave
You still got to make a better man out of me,
Make a better man out of me
It's never good enough
There's always more to come
You know it never stops
It's a labyrinth of song
So please don't break me
Please don't leave
You still got to make a better man out of me,
Make a better man out off me
So please don't break me
Please don't leave
You still got to make a better man out of me,
Make a better man out of me
