My heart is a tornado
My love is a clown
I put those stilettos
When no one's around
I cry out for murder
When I'm feeling down
You smell like potatoes
When deep in the ground

I know, why go?
Baby run run run run
You better run run
I know, why go?
Baby run run run

You see me, you reach me
But you better get those paws out of me
You freeze me, do kiss me
I didn't mean it
My heart is a tornado
My love is a clown
I put those stilettos
When no one's around
I can't reach the ceiling
When I'm feeling down
You smell like potatoes
When deep in the ground

I know, why go?
Baby run run run run you better run run
I know, why go go?
Baby run run run
Baby
Baby baby baby baby run..
You better run
