I'm trapped
In my confusion
And I can't find my way out
I'm locked
I'm locked away
Are you coming to set me free?
I'm lost
In the fall
I wonder if I'll make it through

[Chorus:]
I'm lost
I'm falling
Through your pain I'm crawling
I'm alone without you
I've tried but I can't find you
I'm never coming back to you
I'm never coming back to you

I tried
To break free from this misery
But I can't find myself anymore
I stand alone
Set me free

[Chorus] (x3)

I'm lost
