Walking around in circles I don't know where we are
When I think we're getting close we're still so far apart
Let me just come out and tell you what's on my heart.

I was thinking maybe
You could call me baby
And we could run away, where the sunshines all the
time
And when it goes down,
You and I could slow down
Long enough to steal a kiss or two,
In the dark just me and you
Let the moon light light the way...
Now baby what do you say

When I close my eyes and dream, you're there when I
wake up
I have a feeling, that this feeling could be love
This is what'd I'd say, someday, if I get the courage
up...

I was thinking maybe
You could call me baby
And we could run away, where the sunshines all the
time
And when it goes down,
You and I could slow down
Long enough to steal a kiss or two,
In the dark just me and you
Let the moon light light the way...
Now baby what do you say

What do you say to someone, who means the world to
you
What do you say to the right one, which words do you
choose.
