I remember that night so clear
In your arms I had no fear
A cold night in November, you know I'll always
remember
What was going through my mind
As you touched your face to mine,
And you whispered softly
Staring at me...
I still feel the magic

I'm feeling something crazy inside of me
When I'm not with you baby I feel so weak
My eyes tear up when I think of you
Now all I wanna do is,
Be together cause it feels so right
You lift me up when your hands in mine
You're the one I've been praying for
So I thank the Lord
For giving me a feeling like this
And it started with an Eskimo Kiss

Being a thousand miles apart
Distance tugging at my heart
This is a test to see, if it's really meant to be
And when I hear your voice on the phone
It helps me to forget that I'm alone
And every time I hear you laugh,
I go back...
And I still feel the magic

I was starting to wonder if I'd find someone that I could
count on
I never thought that anyone could touch me like you
do...
Baby...

I'm feeling something crazy inside of me
When I'm not with you baby I feel so weak
My eyes tear up when I think of you
Now all I wanna do is,
Be together cause it feels so right

You lift me up when your hands in mine
You're the one I've been praying for
So I thank the Lord
For giving me a feeling like this
And it started with an Eskimo Kiss
