You came on strong like a diesel tracker
Let it be known it was me
You were after
All you ever wanted was a peice of my heart
Boy you had my number right
From the start

Chorus:
You were a hot wire, on fire
Ready to go
Heatin me up from, head to toe
Had me worked up, talkin love
Now you wanna take it back
What's up with that?

In the middle of the song you changed
Your tune
You were in too deep
And way too soon
You said you really hope that I would understand
You'd even give me first shot at a second chance

Chorus:
You were a hot wire, on fire ready to go
Heatin me up from head to toe
Had me worked up, talkin love now you
Wanna take it back
What's up with that?

Is it yes, or is it no?
Will you stay, or will you go
Are we off, or are we on?
I hold you close and baby then you're gone

Chorus:
You were a hot wire, on fire ready to go
Heatin me up from head to toe
Had me worked up, talkin love
Now you wanna take it back
What's up with that?

What's up with that?

Hunny, what's up with that?

What's up with that?
