No other love can make me feel  
The way that you do

Close the door and warm me up it's cold upside  
But here with you I know that I can face whatever  
Happened twice I don't know but baby that's alright  
Gotta take it day by day remember

I know well how does it feel inside of me  
We're part of every dream we're living now

No other love could ever touch  
The part of me that you do  
Are you for real, how good you feel  
Sometimes I have to ask myself  
'Cos no other love would be enough  
Not even half as much  
No other love came through  
No other love but you do

I don't need to talk about it, but I want to  
Just like that your love chased me, I can see tomorrow  
Won't be lost in the dark again I'll never be alone  
Baby you are , I know I'm home

Sometimes I'm speechless and wanna just breath you  
away  
Like a sodden cigarette  
Won't be out, can hear it loud and feel

It's alright, hold tight  
Be living it's what I'll  
Tell my heart this time  
Broken  
Fight the feel they would be laying down and

I know now that you are mine  
No other love could ever touch  
The part of me that you do  
Are you for real, how good you feel  
No other love could make me feel the way that you do  
Are you for real how good you feel

No other love could make me feel the way that you do  
How good you feel, how good you feels
