I want sing you a little song and apologize to you
For all the pain I didn't see when you really needed me.
I didn't know and if I was a rock'n'roll singer
Maybe you'd love me a little more but I'm trying my
best
To stay the way I am for you.

Even if I'm talking crazy, even if I'm living crazy
I'm always gambling my heart again but I love it, but I
love it
That way, when we're together.

And it's sad in a way, I've got to go to the land I've been
loving so.
When the mind goes by, singing every night
For a bunch of people that'll never know.

How strong, how strong we are when we're together
But happiness, I'll never gamble on it, I don't want your
money.
Don't want a crowd of people, don't want a crowd of
people
When I want to hold you hand and make it magic.

Go sing your song tonight, you'll always be in the
Middle of my mind, we've got the same smile
We've got the music in our minds going on, going on.

I want to sing very softly that little song.
You know my mind will ever be strong
Cause the same purpose, we're reaching first is us.

Even if I'm talking crazy, even if I'm living crazy
I'm always gambling my heart again but I love it, but I
love it
That way, when we're together.
