I REFUSE

To believe in blind traditions
Or buy into this fake world
I will not ignore the truth
I won't follow the sheep and be fooled
I refuse to forget all that I've learned
I see the truth that most choose to fight
Because that is not what I have in mind
As a perfect life

I REFUSE

To believe in blind traditions
Or buy into this fake world
I will not ignore the truth
I won't follow the sheep and be fooled
I refuse to forget all that I've learned
I see the truth that most choose to fight
Because that is not what I have in mind
As a perfect life

I REFUSE when this world tries to poison me

I REFUSE

... I REFUSE...

When this world tries to poison me
I REFUSE to forget all that I've learned
In a world force feeding so many lies
All the confusion of CHOOSING SIDES
I have searched and found what is best for me
And this world will never that that from me
