

## **VersusThe World "Seconds To Shine"**

Visit "[Seconds To Shine](#)" on MotoLyrics.com

This is the moment only seconds to shine  
I've had years to prepare  
If the joys in the chase I could die in this place  
With a smile on my face

If we could see us now  
Would we make ourselves proud  
You know I thought my whole  
Life was meant for this  
You know I fought and I swear  
I would die for this  
For one last chance to make this ours

Embellish this moment most people live their  
Whole lives without feeling this good  
Disguised in this smile is fear laced with hope  
That wont die but disguised in this hope  
Is a doubt in my soul thats been eating me alive
