Black clouds and acid rain
Blood is water you drink
United we will stand
Billboards clame
Blacks and whites still start fights
Well she's coming down
Is she coming down on you
Sin is falling down
Red the sky was blue
The crown is tipping out wrath
The moon is blood the sun is night
Fire not flood shows her might
She's coming down on you!
She is wrath and wrath is God's
He pores out His wrath to your mouth
Drink be marrie
Drink be buried
'cause she's His and He's comin' down for you
He's got a manchin
He's got a dungeon too
He'll be in the house of God
But she won't
In the dungeon will be just her and you
Yadda yodda break pinyotta kiss and call sin burn and
fall in
