Since you came into my life
I've been touched by happiness
I feel love is all around
'cos there is no more loneliness

Bridge:
And there's one thing that is true
You should know how much I love you

Chorus:
Love is everything I want, love is everything I need
Thinking of the day we met as a sign of destiny
Love is everything I want, I believe in you and me
Let me show you what I feel because my love is real

The girl I was I left behind, incomplete and insecure
Now I got you on my mind and I feel like I've been
cured
