You'll be around
On my ups and my downs
I've been so alone
I'm the fool always cround it round
Makes me glad you don't know I'm feeling bad

So relax with the truth in this life
Cause I'm so good at making you smile
When all I need I giving to you
Always laughing at loud
But when I cry
It 's like water on the world
Water on the world
But when I cry
It 's like water on the world
Yet it is
I'm the one
That you know as your back
I'm your friend
And then nothing change in that
But what a girl do
When all I need I've giving all to you
Always laughing at loud
But when I cry
It 's like water on the world
Water on the world
It 's like water on the world
Water on the world
It 's like water on the world
Water on the world
Water
It 's like water on the world
Water on the world
Word
Water on the word
But when I cry
It 's like water on the world
Water on the world
When I cry
