Need some time, disinfect It's all I have claim to be To
purify what you have left You ripped and fell away from
me They said it's alright They said you're alright I wish
they knew what you have done Why you kill me Why
you hate yourself Why? Why? Why your killing Cut you
down Trust in me never mind I wish sometimes you'll
find They said it's alright They said you're alright I wish
they they knew I wish they'd cut you down Why you kill
me Why you hate yourself Why your killing You are the
pain. You are the hurt, You are the hate Why? Why?
