2 in the morning  
City's slept  
Among the buildings  
A dense fog, you cannot see

Ten meters under  
Where you stand  
A sinister being  
Has been centuries in lethargy

Appeared in a mine  
And took some ugly lives  
Years later was dominated  
And sent back to darkness

[Chorus:]  
Bear skin, lion teeth  
Human eater, pure instinct  
Fear bringer, you will run  
but it's faster than you...

It's a nightmare but it's real  
Years later was dominated  
Run away or takes your life  
It's the BLACK BEAST

[Chorus]

It was professed  
As the final plague  
Now a chance of destiny  
Makes it come back

[Chorus]
