Darkness, of white
You came, through the sadness take your flight
And become the wings,
That pierce the veil,
Spreading strong and true tonight.
Brought into the line at last;
By the cold exposing sun.
I was granted freedom tamed;
To become the chosen one.
Through the mirror;
Night reflected;
Miraculous to see!
My soul threw away the mask
That hides the deeper me.
Breaking the dark of night,
Piercing through the painted white.
Cut it all away;
From yesterday,
'Til an new era's in sight.
Unlock the heart within,
Let it spread it's wings and soar.

Rising up in flight;

Through the night of white;

And fly on forever more!
