Well I'm a rovin gambler I've seen most every town
When ever I meet with a deck of cards I lay my money
down
Gonna lay my money down, yea gonna lay my money
down

I've gambled out in Texas and down in New Orleans
I've lost a pot with four of a kind and won with a couple
of queens
Gonna Bluff with a couple of queens, yea I won with a
couple of queens

Well I meet a friend in Frisco and Lady Luck was her
name
Yea I couldn't lose with a pair of twos till a woman got in
the game
A red head got in the game, yea a woman got in the
game

Yea she won my old black panhead and she won my
switch blade knife
And when I lost everything I had she told me to bet my
life
She told me to bet my life, she told me to bet my life

If you don't wanna lose your freedom, you care about
your life
Don't get in a game with a red head thing, you'll win
yourself a wife
You'll win yourself a wife, now you got yourself a wife
