Lead vocals: Carol Kenyon
Additional vocals: Paul Lee
Guitars and keyboards: Mike Oldfield
You will have nothing but love
Nothing but hope, blue sky above
You will find nothing but peace
Nothing but the sun shining on your face
When you open your eyes
When you open your eyes
You will feel nothing but free
Nothing but trust that's how it should be
And one who cares about nothing but you
Watching close by the whole night through
When you open your eyes
When you open your eyes
You will feel nothing but warm
Nothing but shelter from the storm
You will have nothing but rest
Deep in your heart nothing but the best
Nothing but love when you open your eyes
Nothing but love when you open your eyes
