I will never forget  
The way you and I met  
I finally saw your love was real  
You opened my eyes  
Opened my mind  
You opened my heart Lord  
You gave me tomorrow and  
Forgave me for the days gone by  
Put time in a bottle  
With all the tears I'll cry  
Now it's never too late for love

It's funny how time goes by  
The ebb and the flow  
The low and high  
From the way I feel  
It's there all the time  
A purpose in life  
You're here in my heart Lord  
I'll forever wonder  
Why you love me like a child  
But I'm thankful  
Just the same for my life
