Chorus

Angel of mine
You are my friend
Through the hard times
Here till the end

Verse 1

It almost seems
We've known each other forever
You and i, my friend
Difficult days seem a little bit brighter
Because you are here
You always know just what to say to keep me smiling
God knows i needed you in my life
To make it to the end

Chorus

Verse 2

You're an awesome (friend)
And a very special (friend)
You're everything i need and more (friend)
Together we are just a little bit stronger
Together we are just a little bit wiser
Together we are just a little more beautiful

Chorus

Vamp

Eyes have not seen
Ears haven't heard
What god has in store for us
Together we stand
Believing his word
We will conquer the world

Chorus
