Trying every way
Hope to see the day
When all pain will be gone
Problems linger on
And it seems all hope is gone
And you feel all alone

You're trying to win the fight
You toss all night
Looking for what's right
The more you try
To do what's right
You can't see the light

What will you do
To find your way out
Try christ

Friends come and go
But like you know
That's just how it is - ooooo
They say to you
I will, i will come through
But when the day is through
You run to him
This friend ah ah ah
He said he would come through

Oh he's not there
Doesn't seem to care
Now what will you do

The weight is great
Don't hesitate
Grab hold for life

Try christ, it will be better
Try christ, he'll make it better (repeat)

Why don't you try christ (repeat)
