Oh, make make

There's no way out, no way in  
To the hallowed halls, the inner ring  
You're just a face in the crowd  
You got no place when you're down and out

Mona Lisa, you can stop searching  
Don't you know we're not virgin

We're on the make make  
We only take take  
We're on the make make  
We accumulate

We're on the make make  
Don't mind, it's fake fake  
We're on the make make  
We're making heartbreak

We're on the make

We build our tower on shifting sand  
You got no idea what's changing hands  
No chivalry, who cares what you feel?  
This is not the place for high ideals

Mona Lisa, you can stop searching  
Don't you know we're not virgin?

We're on the make make  
We only take take  
We're on the make make  
We accumulate

We're on the make make  
Don't mind, it's fake fake  
We're on the make make  
We're making heartbreak

Mona Lisa, you can stop searching  
Don't you know we're not virgin?

We're on the make  
No sympathy, we're sacrosanct  
We're on the make  
No charity, no thanks

We're on the make  
We only take take  
We're on the make make  
We accumulate

We're on the make make  
Don't mind, it's fake fake  
We're on the make make  
We're making heartbreak

We're on the make  
(Make make, take take)  
Oh, make make  
We're on the make  
(Make make, fake fake)  
Oh, make make

We're on the make  
Oh, make make  
We're on the make  
Oh, making heartbreak

We're on the make  
Oh, make make  
We're on the make  
Oh, make make  
We're on the make
