Won't you like to look through my telescope  
The milky way's a fine sight to see  
All around our universe  
We try so hard to view  
What's new

Make a trip down to Sagittarius  
And take a spin by some nebula  
I hope the sky stays clear for us  
Tonight goes on so far  
In stars

Saved by a bell  
Suffer in hell  
But you were too blind to tell

Saved by a bell  
Suffer in hell  
And you made it through so well

Shining like bright diamonds the galaxies  
Jupiter and Saturn spin by  
Passing by companions  
They all go drifting by, they fly

Carry me down to see Aquarius  
We're hoping to meet a shooting star  
I can see there's gonna be  
A message from afar  
How close we are

Saved by a bell  
Suffer in hell  
But you were too blind to tell

Saved by a bell  
Suffer in hell  
And you made it through so well

Saved by a bell  
Suffer in hell  
But you were too blind to tell

Saved by a bell  
Suffer in hell  
And you made it through so well

Saved by a bell  
Suffer in hell  
But you were too blind to tell

Saved by a bell  
Suffer in hell  
And you made it through so well

Saved by a bell  
Suffer in hell  
But you were too blind to tell
