I wanna move on
but not tonight
I want a new life
but it doesn't seem right
I've found a new girl
and she's ready for me
So why does it hurt...
why does it hurt so much?

I wanna move on
but I wanna go back
I wanna forget you
but a will I lack
I wanna go with her
but you're still here
She's waiting for me
and then a tear appears

Stuck between decisions
I can't make a choice
She's asking me a question
but I can't make out her voice
She's wondering what's wrong
I'm wondering what to say
Do I tell her I still love you
and tell her to go away?

Or has the time finally come
for me to really move on?
Someone give me a sign
tell me if my love for you is gone
Is this the moment
that I've been waiting for?
Time to start a new life
a new future I should explore?

I wanna move on
but I'm not ready
I wanna test the water
but the boat's not yet steady
Should I reach out

and try to grasp the future?
She's still waiting for me
so I finally answer her

"Give me just one more night
just one more night
I wanna move on
but not tonight"
She sighs again
like the night before
and she says, "You'll never be ready"
as she walks out the door
