"Wishing On The Same Star"

Visit "[Wishing On The Same Star](#)" on MotoLyrics.com

Drive several miles - towards the outskirts of town
Grip the steering wheel - thoughts in my head go
'round

Try to focus on the road - it starts to blur
Close my eyes for a second - stop thinking of her!

Hear her voice in my head - turn the radio up
Even at full blast - music isn't loud enough
Hard to block things out - I still try
No way I'll truly succeed - I barely get by

Look through the moon roof - following a star
I drive fast - it still seems so far
Gassing three digits - I'm still not there
How fast must I go for the wind to dry my tears?

A quick decision - hit the brakes of my car
Giving up hope - I'll never reach that star
Look up and make a wish - her on my mind
Even if she's wishing on the same star -
her wish won't be the same as mine
