Time, the future's in my mind.  
I know the game  
I can feel the power of the night,  
A big desire.  
Time, emotion in my eyes,  
you know my game.  
I can't leave without my love tonight,  
I'm crazy

Why, in the middle of the night  
I call your name.  
Save my heart, it's beatin' fast  
My love is ready all the time.

Stay, forever my game is good to play,  
Incredible story if you  
Stay, I need you today.  
My heart is on fire, please don't leave this way.

Stay, whenever you want to feel the same  
Forever I need you if you  
Stay, my heart is okay.  
Together we'll spend our life forevermore.
