[Guru]

Yo my girl's heated  
cause I told her I was busy workin and I couldn't talk  
I told her I'd call her back later and she still got mad  
That was all I said, word up

Why she buggin if I promised that I'd call her back  
Of course I'm honest plus I'm keepin things all intact  
I be stressed out baby, sometimes on my grind  
And on my mind, is a paperchase with minimal time  
She should know how it goes - I'm, still into her  
I got feelings for her, I been caring for her  
But really though; I mean she ought to know the deally-  
yo

Especially if I'm in a meeting or out shooting a video  
I love her yo, but I'm just doin my job  
Ain't no need for confusion what I'm doin is hard  
I'm the type of man, with a serious type of plan  
I'm calmer no drama, no need for gettin hyper  
and upset with me, because I'm busy a lot  
And if I could you know I would, bring her with me a lot  
Ain't nuttin wrong word is bond, it's all in her head  
I was handling some business, and that's all I said

[Chorus: Macy Gray]

All, I, said.. I'll call you later  
Sometimes, I forget  
I love you baby don't be.. so upset  
I'll call you later is all, I said..

[Guru]

I'm confessin no question yeah I chill with my boys  
Still she gotta keep it real, either build or destroy  
This is deep right here, she completes my square  
Without a doubt, if she needs, I'ma be right there  
This world is crazy, she's supposed to help me stay  
sane  
Supposed to help with the pain, supposed to help me  
maintain  
And quote this, I'm focused on the dreams we share  
I got her all up in my mix, so it means I care

This job of mine goes on and on, twenty-four hours a day  
And with trust we can win, in a powerful way  
When I get home, I'm gonna love her down  
I'll be like Teddy, get some hot oils, and rub her down  
I know she's bored, feels ignored, all by herself alone  
and she hates it, when I turn off my cell phone  
But it's alright don't wanna fight, it's all in her head  
I was takin care of business, and that's all I said

[Chorus]

[unknown singer]  
Baby when you're speakin like that, it makes me ooh  
So watch as you hold on to my spine; I'll crush you  
Baby when you're speakin like that, it makes me ooh  
So watch as you hold on to my spine; I'll crush you

[Macy] I think we are ready  
[Guru] We're ready as we'll ever be, girl your love is heavenly  
[Macy] What we gonna do now  
[Guru] We gon' do what we gotta do, I wanna see a lot of you  
[Macy] Just you keep it steady  
[Guru] I'm steady and secure you couldn't ask for more  
[Macy] C'mon let's work it out (aight)  
[Macy] Just don't hurt me now (nah baby)

[Chorus] + variations

[unknown singer]  
Baby when you're speakin like that, it makes me ooh  
So watch as you hold on to my spine; I'll crush you  
Baby when you're speakin like that, it makes me ooh  
So watch as you hold on to my spine; I'll crush you

[Macy]  
I love you, babyyyy  
All, I, said.. all I said.. I forget  
I love you baby don't be (so mad) so upset
