Don't want nobody who don't satisfied  
I spent a lifetime tonight  
Of all the things I thought were right  
Someone who don't need to fight

Maybe you feel what I feel it could be  
Better than ever before  
Trying to find what is meaning to me  
Baby it's you I adore

Cause I only wanna be with  
Only wanna be with  
Only wanna be with you (I only wanna be with you)  
Cause I only wanna be with  
Only wanna be with  
Only wanna be with you (I only wanna be with you)

I go to pieces everytime you're near  
Without you I won't survive  
You say the words I wanna hear  
You know your love is so right

Over and over with you in my head  
Feelings I cannot ignore  
Finding a reason in things that you say  
You in my life ever-more

Cause I only wanna be with  
Only wanna be with  
Only wanna be with you (I only wanna be with you)  
Cause I only wanna be with  
Only wanna be with  
Only wanna be with you (I only wanna be with you)

Wanna be with you  
Wanna be with me  
When the music plays  
Take a chance on me  
All the things you do  
All the little signs  
Wanna be with you

Wanna make you mine

Over and over with you in my head  
Feelings I cannot ignore  
Finding a reason in things that you say  
You in my life ever-more

Cause I only wanna be with  
Only wanna be with  
Only wanna be with you (I only wanna be with you)  
Cause I only wanna be with  
Only wanna be with  
Only wanna be with you (I only wanna be with you)

Cause I only wanna be with  
Only wanna be with  
Only wanna be with you (I only wanna be with you)  
Cause I only wanna be with  
Only wanna be with  
Only wanna be with you (I only wanna be with you)
