Come find me
While I'm in the Jury
Cause I'm not home
You are not alone
I'm always beside you
Just hold tight!
I'll be there in a couple months
(just hold, just hold)
Cause I'm safe in California
Just know that i still care
(i still care)
Depite 10 thousand miles of
Mountain tops and grassy plains

I swear I'm always here
(always here)
If only through the
Telephone line
So call me up when the cupboard cops
Come get you
And the backseat of their car
When you're terrified of going home

The winters cold
The summers dead
You're far to strong
For things like that
I know first hand
That he laid on you
Feel the way he drew to you
Don't believe that he is everything you had
I know it's hard
When he's been there
For you everyday
And not to mention all those memories u've made
Just know
That moving on
Will only make you stronger
I swear

It's so sad
That someone like you

Has to deal with the pain
That I'm going through
And I wish i could see you
At this time
It's so sad
That someone like you
Has to deal with the pain
That I'm going through
And I wish i could see you
At this time

So you realize that the pain
Is worth disguising
And coming through
It's the fact that it's so long
To live in a place with her

The winters cold
The summers dead
You're far to strong
For things like that
I know first hand
That he laid on you
Feel the way he drew to you
Don't believe that he is everything you had

So don't tell me
What you want to hear
Please tell me what
I want to hear
The cellar door
Closed on me soon enough

Well take a breathe
And let her go
The beating of my hearts so slow
You both know well
Exactly where your hearts should be

I know it's hard
When he's been there
For you everyday
And not to mention all those memories u've made
Just know
That moving on
Will only make you stronger
I hope.
