You can hang up the telephone
You can spend the night alone
Run around, try and bring me down,
But there's one thing you should know
You can't take love away
You can't take my love away
I'll love you 'til forever

You can turn down the radio
You can say it isn't so
Maybe cry, see another guy,
There's one thing you should know
You can't take love away
You can't take my love away
I'll love you 'til forever

Sometimes I wonder
When our love is not so strong
The days when things go wrong
You leave me sighing
Yet when we share our love
Together you and i
The flame of love is high
And we are flying
You can't take love away
You can't take my love away
I'll love you 'til forever

You can say you must be free
You can sail across the sea
Tell a lie, even say goodbye,
But there's one thing you should know
You can't take love away
You can't take my love away
I'll love you 'til forever

You can't take love away
You can't take my love away
No darling, I'll love you 'til forever
You can't take love away
No, no, 'cause I love you
And you can't take that away from me

I'll love you 'til forever
